ific numbers or other betting options. Once bets are placed, the croupier spins the Roulette is, at heart, a simple game. So trust French casino-dwellers to develop some rather more intricate ways in which to play. If you're given the chance to play a French-style roulette table, then you should, as this will probably give you access to the punter-friendly En Prison/La Partage rules. Combine these with a single zero layout (unlike double-zero American-style tables), and the house edge falls to around 1.4%. However, if you are taking a spin on a true French table, you'll find much that's, erm, foreign. And most of this will be due to the existence of bet types like Voisins du Zero, Tiers du Cylindre, and Orphelins.

Whereas most roulette tables (in land casinos) assign coloured chips to the players, so that winning bets can be easily identified, the chips on French tables differ only in the numerical amounts they have printed on them. With nothing to distinguish one player from another, it becomes important not to have too many chips on the board at the same time. The need for space partly inspired the invention of an additional grid, called the 'Racetrack'. This oval-shaped section sits to the side of the main play area. it features all of the same numbers - 0 to 36 - but within a different layout. Its point is to act as an extension to the main grid, and to encourage some of the players to switch to exotic 'French Bets'. These French bets were traditionally referred to as 'Call Bets' or 'Announced Bets', as they were too specialist to be featured on the main tables, and players had to call out when they wanted to play them.

So what exactly are these bets, and what do they consist of?

The Ins and Outs of Call Bets

If you look at the main wheel for roulette, you'll see that it can be broken down into two large slices, along with a couple of smaller segments sitting between them in the middle. Each of these sections contains a set of numbers that make up one of the following bets:
