101 Roulette is an exotic variant developed by Playtech and released in September 2024.

It shares many similarities with 1000 Diamond Roulette, which is another Playtech game.

It is vaguely based on European roulette, which means there is a single zero on the wheel. However, that's where the similarities end: the game has 105 pockets to place a

bet on, and its wheel looks like a racetrack. The maximum win is 100x total bet, and

there are multiple bet types that offer this payout. However, unlike 1000 Diamonds

Roulette, there is no secondary wheel with additional multipliers.

Features of 101

Roulette

The overall RTP of 101 Roulette is 96,19%, but based on your bets, the house edge can be as high as 14,29%, which is a high figure.

0.10 is the minimum bet

accepted. The maximum bet cannot be higher than 50.00.

You can win up to 10.000 in the

base game.

While the game works on mobile, the interface elements are quite big, so you may not get an ideal experience on devices with small screens.

The table contains 100

numbers, a 0 pocket, and four additional symbols based on play cards (clubs, diamonds, hearts, and spades). In total, you get 105 options to try your luck on. And

that's why the wheel above looks like a giant racetrack: it is impossible to place 105

numbers on a regular wheel. You can think of 101 Roulette as a variant of European roulette with more numbers. However, the payouts of bets are different and there are

multiple outcomes that pay as high as 100x:

Straight bet : 100:1

: 100:1 “0” bet :

There is also a "lucky number" feature you can use to place bets that cover multiple numbers. When activated, this option covers all the neighboring numbers of your selection automatically. You can also see how much of the wheel you are covering with your bets, which can help you with some strategies.
