settlement of qualifying bets. Min odds, bet and payment method exclusions apply.

Returns exclude Bet Credits stake. 7 Time limits and T&Cs apply.

OVER/UNDER 0.5 GOALS

HELP

How does over/under 0.5 goals betting work?

Basically, this market involves

betting on whether 7 there will be more or less than 1 goal in a particular game. If you
think there will be a 7 goal in the game, you should bet on over 0.5 goals. If you think
the game will finish goalless (0-0), 7 then you should bet on under 0.5 goals.

How do I

place an over/under 0.5 goals bet on KickOff?

Placing this type 7 of bet on KickOff is

incredibly easy, either as a single or part of an accumulator. To add the over 7 0.5
goals bet to your betslip click the odds under the "OVER 0.5" column and to add the
under click 7 the odds underneath "UNDER 0.5".

If you'd like to participate in our

competitions, leaderboards and rankings - including the top 0.5 7 goals tipsters - without risking money with a bookmaker, you can simply save the tip to KickOff by clicking the 7 button next to the KickOff logo on your betslip.

Otherwise, select your

bookmaker from the range of odds presented - the 7 best odds for your single or accumulator will always be calculated and shown in descending order for each bookie.

Click 7 the icon next to their name and you'll be taken to their site to complete your bet.

How do the over/under 7 0.5 goals stats work?

Our goals stats work in the same way

across our goals markets (0.5, 1.5, 2.5 etc). The 7 light green colour coding always represents over on the selected goals market and the dark blue shows the under. For 7 the 0.5 market that means that over 0.5 goals (at least 1 goal) is represented by the light green colour, 7 and under 0.5 goals (no goals or 0-0) by the darker colour.

Form

The form

section shows stats such as goals scored 7 and conceded as well as how many clean sheets a team has kept and how many separate matches they've managed 7 to score in. If you'd like to see the results of individual matches and who they were against click "see 7 results".

League Table

KickOff's League Table is a great way to see if a team performs differently against teams of different quality 7 - for example, they might score loads of goals against teams towards the bottom of the league but completely dry 7 up against those at the top. It might make them a good over 0.5 goals bet against struggling sides, but 7 you might want to take the under when they come up against a top team.

The

League Table shows you this 7 with colour coded results - the home team's results are on the left and the away team's results are on 7 the right. Results which finished with under 0.5 goals are coloured dark blue, while those that finished with over 0.5 7 goals are coloured light green.

xG

xG can be a useful metric to use for goals bets and WDW

tips. xG shows 7 the number of goals a team would have been expected to score (per match) based on the quality of the 7 chances they've created.

Head to Head

Some teams when they

get together just create the conditions for a certain type of match. 7 It might be that both their attacks are set up perfectly to exploit weaknesses in the defence of the other 7 and they always score loads of goals. It might be a local derby where both sides get tense, and every 7 loose ball is so fiercely contested that there's just no space for the attacking players to flourish that always ends 7 0-0. Looking at previous head to head form can be really useful in predicting what might happen. You can do 7 that here.

What's the Pro Menu?

The Pro Menu for over/under 0.5 goals lets you sort all matches by the likeliest to 7 have over 0.5 goals and the likeliest to have under 0.5 goals. This is a fantastic tool if you're looking 7 to build an accumulator as you can easily see the games with the highest chance of winning. It's also incredibly 7 useful to pick out the games where the odds offer value relatively to how likely it is the bet will 7 win.

In addition, the pro menu lets you filter teams to find streaks where teams have scored or conceded in 5 7 or more consecutive games. This is a great way to find

potential value in matches by finding teams which are 7 currently scoring more or fewer than usual - a fact which might not have been priced into their odds.
