Card game

"Poker player" redirects here. For the magazine, see *Poker Player*

A game of

Texas hold 'em in progress. "Hold 'em" is a popular form of poker.

Poker is a family of

comparing card games in which players wager over which hand is best according to that specific game's rules. It is played worldwide, but in some places the rules may vary.

While the earliest known form of the game was played with just 20 cards, today it is usually played with a standard deck, although in countries where short packs are common, it may be played with 32, 40 or 48 cards.[1] Thus poker games vary in deck configuration, the number of cards in play, the number dealt face up or face down, and the number shared by all players, but all have rules that involve one or more rounds of betting.

In most modern poker games, the first round of betting begins with one or more of the players making some form of a forced bet (the blind or ante). In standard poker, each player bets according to the rank they believe their hand is worth as compared to the other players. The action then proceeds clockwise as each player in turn must either match (or "call") the maximum previous bet, or fold, losing the amount bet so far and all further involvement in the hand. A player who matches a bet may also "raise" (increase) the bet. The betting round ends when all players have either called the last bet or folded. If all but one player folds on any round, the remaining player collects the pot without being required to reveal their hand. If more than one player remains in contention after the final betting round, a showdown takes place where the hands are revealed, and the player with the winning hand takes the pot.

With the

exception of initial forced bets, money is only placed into the pot voluntarily by a player who either believes the bet has a positive expected value or who is trying to bluff other players for various strategic reasons. Thus, while the outcome of any particular hand significantly involves chance, the long-run expectations of the players are determined by their actions chosen on the basis of probability, psychology, and game theory.

Poker has increased in popularity since the beginning of the 20th century and has gone from being primarily a recreational activity confined to small groups of enthusiasts to a widely popular activity, both for participants and spectators, including online, with many professional players and multimillion-dollar tournament prizes.[2]

History [edit]

While poker's exact origin is the subject of debate, many game scholars point to the French game Poque and the Persian game As-Nas as possible early inspirations.[3] For example, in the 1937 edition of Foster's Complete Hoyle, R. F. Foster wrote that "the game of poker, as first played in the United States, five cards to each player from a twenty-card pack, is undoubtedly the Persian game of As-Nas." However, in the 1990s the notion that poker is a direct derivative of As-Nas began to be challenged by gaming historians including David Parlett. What is certain, however, is that poker was popularized in the American South in the early 19th century, as gambling riverboats in the Mississippi River and around New Orleans during the 1830s helped spread the game. One early description of poker was played on a steamboat in 1829 is recorded by the English actor, Joe Cowell. The game was played with twenty cards ranking from Ace (high) to Ten (low).[4]

In contrast to this version of poker, seven-card stud only appeared in the middle of the 19th century, and was largely spread by the US military.[5] It became a staple in many casinos following the second world war, and grew in popularity with the advent of the World Series of Poker in the 1970s.[6]

Texas hold 'em and other community card games began to dominate the gambling scenes over the next couple of decades. The televising of poker was a particularly strong influence increasing the popularity of the game during the turn of the millennium, resulting in the poker boom a few years later between 2003 and 2006. Today the game has grown to become an extremely popular pastime worldwide.

Gameplay [edit

]

Further information on betting rules: Betting in poker

In casual play, the right to deal a hand typically rotates among the players and is marked by a token called a dealer button (or buck). In a casino, a house dealer handles the cards for each hand, but the button (typically a white plastic disk) is rotated clockwise among the players to indicate a nominal dealer to determine the order of betting. The cards are dealt clockwise around the poker table, one at a time.

One or more players are usually required to make forced bets, usually either an ante or a blind bet (sometimes both). The dealer shuffles the cards, the player on the chair to their right cuts, and the dealer deals the appropriate number of cards to the players one at a time, beginning with the player to their left. Cards may be dealt either face-up or face-down, depending on the variant of poker being played. After the initial deal, the first of what may be several betting rounds begins. Between rounds, the players' hands develop in some way, often by being dealt additional cards or replacing cards previously dealt. At the end of each round, all bets are gathered into the central pot.

At any time

during a betting round, if one player bets, no opponents choose to call (match) the bet, and all opponents instead fold, the hand ends immediately, the bettor is awarded the pot, no cards are required to be shown, and the next hand begins. This is what makes bluffing possible. Bluffing is a primary feature of poker, distinguishing it from other vying games and from other games that use poker hand rankings.

At the end of the

last betting round, if more than one player remains, there is a showdown, in which the players reveal their previously hidden cards and evaluate their hands. The player with the best hand according to the poker variant being played wins the pot. A poker hand comprises five cards; in variants where a player has more than five cards available to them, only the best five-card combination counts. There are 10 different kinds of poker hands, such as straight flush and four of a kind.

Variants [edit]

2006 WSOP Main

Event table

Poker has many variations,[7][8] all following a similar pattern of play[9] and generally using the same hand ranking hierarchy. There are four main families of variants, largely grouped by the protocol of card-dealing and betting:

Straight A

complete hand is dealt to each player, and players bet in one round, with raising and re-raising allowed. This is the oldest poker family; the root of the game as now played was a game known as Primero, which evolved into the game three-card brag, a very popular gentleman's game around the time of the American Revolutionary War and still enjoyed in the U.K. today. Straight hands of five cards are sometimes used as a final showdown, but poker is almost always played in a more complex form to allow for additional strategy. Stud poker Cards are dealt in a prearranged combination of face-down and face-up rounds, or streets, with a round of betting following each. This is the next-oldest family; as poker progressed from three to five-card hands, they were often dealt one card at a time, either face-down or face-up, with a betting round between each. The most popular stud variant today, seven-card stud, deals two extra cards to each player (three face-down, four face-up) from which they must make the best possible 5-card hand.

Draw poker Five-card draw: A complete hand is dealt to each player, face-down. Then each player must place an ante to the pot. They can then see their cards and bet accordingly. After betting, players can discard up to three cards and take new ones from the top of the deck. Then, another round of betting takes place. Finally, each player must show their cards and the player with the best hand wins.

Community card poker Also known as "flop poker," community card poker is a variation of stud poker. Players are dealt an incomplete hand of face-down cards, and then a number of face-up community cards are dealt to the center of the table, each of which can be used by one or more of the players to make a 5-card hand. Texas hold 'em and Omaha are two well-known variants of the community card family.

There are several

methods for defining the structure of betting during a hand of poker. The three most common structures are known as "fixed-limit," "pot-limit," and "no-limit." In fixed-limit poker, betting and raising must be done by standardized amounts. For instance, if the required bet is X, an initial bettor may only bet X; if a player wishes to raise a bet, they may only raise by X. In pot-limit poker, a player may bet or raise any amount up to the size of the pot. When calculating the maximum raise allowed, all previous bets and calls, including the intending raiser's call, are first added to the pot. The raiser may then raise the previous bet by the full amount of the pot. In no-limit poker, a player may wager their entire betting stack at any point that they are allowed to make a bet. In all games, if a player does not have enough betting chips to fully match a bet, they may go "all-in," allowing them to show down their hand for the number of chips they have remaining.

While typical poker games award the pot to the highest hand as per the standard ranking of poker hands, there are variations where the best hand, and thus the hand awarded the pot, is the lowest-ranked hand instead. In

such games the best hand contains the lowest cards rather than the highest cards; some variations may be further complicated by whether or not hands such as flushes and straights are considered in the hand rankings. There are also games where the highest and lowest hands divide the pot between them, known as "high low split" games.

Other

games that use poker hand rankings may likewise be referred to as poker. Video poker is a single-player video game that functions much like a slot machine; most video poker machines play draw poker, where the player bets, a hand is dealt, and the player can discard and replace cards. Payout is dependent on the hand resulting after the draw and the player's initial bet.

Strip poker is a traditional poker variation where players remove clothing when they lose bets. Since it depends only on the basic mechanic of betting in rounds, strip poker can be played with any form of poker; however, it is usually based on simple variants with few betting rounds, like five card draw.

Another

game with the poker name, but with a vastly different mode of play, is called Acey-Deucey or Red Dog poker. This game is more similar to Blackjack in its layout and betting; each player bets against the house, and then is dealt two cards. For the player to win, the third card dealt (after an opportunity to raise the bet) must have a value in-between the first two. Payout is based on the odds that this is possible, based on the difference in values of the first two cards. Other poker-like games played at casinos against the house include three card poker and pai gow poker.

Computer

programs [edit]

A variety of computer poker players have been developed by researchers at the University of Alberta, Carnegie Mellon University, and the University of Auckland amongst others.

In a January 2024 article^[10] published in

Science, a group of researchers mostly from the University of Alberta announced that they "essentially weakly solved" heads-up limit Texas Hold 'em with their development of their Cepheus poker bot. The authors claimed that Cepheus would lose at most 0.001 big blinds per game on average against its worst-case opponent, and the strategy is thus so "close to optimal" that "it can't be beaten with statistical significance within a lifetime of human poker playing."^[11]

E-

Trump manteve muito de seu apoio político black jack gratis online meio ao julgamento do silêncio e dinheiro, devido a uma combinação da proibição dos tribunais sobre câmeras com mídia conservadora ecoando suas alegações que tanto o promotor quanto os juizes são corruptos. Os especialistas sugerem que o ex-presidente poderia manter apoio político à direita, mesmo se os jurados determinarem a culpa de 34 acusações por falsificar registros comerciais relacionados aos seus reembolsos para Michael Cohen black jack gratis online um pagamento ao Stormy Daniel durante black jack gratis online campanha presidencial.

Mídia conservadora como Fox News, Newmax e One America Notícias Network estão "correndo uma espécie de 'cabeças. nós ganhamos; caudas você perde' jogar", disse Matt Gertz (um membro sênior da Media Matéria para a América), um grupo defensor à esquerda que está argumentando o julgamento com "caça às bruxas é puxado por Joe Biden [o juiz] vai ser pego", eles dizem: 'ele será considerado inocente mas ao mesmo tempo ele não se considera culpado'. O julgamento black jack gratis online Nova York diz respeito a uma das quatro acusações criminais que Trump enfrenta, mas provavelmente será o único concluído antes da eleição de novembro.

Trump lidera Biden black jack gratis online várias pesquisas recentes.

Uma proibição de câmera no tribunal Manhattan dificilmente é exclusiva do caso Trump black jack gratis online dinheiro. Nos EUA, apenas o Distrito da Columbia está mais restritivo que Nova York na medida para permitir a cobertura audiovisual dos processos judiciais entre 48 jurisdições revisadas num relatório pelo Fundo pelos Tribunais Modernos e uma escassez interna nos meios visuais públicos tem-se contar com esboço das cortes ou relatos secundários sobre os fatos ocorrido durante um processo judicial perante ele;

"Você sabe o ditado, 'A câmera nunca pisca'", eu acho que se você tivesse uma câmara fixa no tribunal não interpretaria; seria apenas aquilo na frente da máquina {img}gráfica.

Tanto Polksin quanto Kathleen Hall Jamieson, professora de comunicação da Universidade do Pensilvânia e diretora no Annenberg Public Policy Center (Centro Público para Políticas), que publica Factcheck.org contrastaram a cobertura sobre o julgamento contra Trump com as acusações feitas pelo assassinato black jack gratis online 1995 por OJ Simpson; os juizes permitiram uma câmera ao vivo na sala dos tribunais onde foi realizada black jack gratis online audiência pública – mas esse caso cativou toda nação norte-americana!

Foi um presente para Trump que não havia câmeras no tribunal. Eu acho teria havido muito mais cobertura tanto na esquerda, direita e mainstream se esse fosse o caso

"Quando estamos realmente observando algo, fazemos julgamentos no momento que são potencialmente muito poderosos na formação de percepções", disse Jamieson. "quando alguém nos conta alguma coisa o efeito é menos vívido e mais imediato".

Desde que uma reeleitura produz menos conteúdo dramático do que {img}s e {sp}s de, por exemplo protestos recentes black jack gratis online campi universitários sobre a guerra na Faixa da Gaza - analistas disseram à Reuters (Reuters) – as redes noticiosas cabo-particularmente Fox News dedicaram pouco mais tempo para isso.

De 15 de abril a 17 maio, Fox News mencionou o julgamento cerca da metade do que e MSNBC. Segundo cálculos fornecidos por Roger Macdonald no Internet Archive TV Notícias black jack gratis online um relatório Político

Durante a primeira semana do julgamento, 55% dos americanos disseram que não estavam acompanhando de perto ou nem assistindo nada disso ”, segundo uma pesquisa da PBS NewsHour e Marist.

"É Natal de maio para Trump", disse Polskin. "Foi um presente a Donald que não havia câmeras no tribunal, acho ter havido muito mais cobertura tanto na esquerda quanto direita e mainstream se fosse esse o caso".

Esse vazio, black jack gratis online seguida deu mais espaço para Trump moldar a narrativa. Trump ignorou repetidamente uma ordem de mordaça imposta pelo juiz Juan Merchan black jack gratis online março depois que o ex-presidente atacou pessoas, incluindo a juíza Cohen e os membros do júri.

Em black jack gratis online plataforma de mídia social Truth Social, Trump compartilhou posts black jack gratis online que citou o apresentador da Fox News Jesse Watters descrevendo possíveis jurados como "ativistas liberais disfarçado" e uma reportagem do New York Post dizendo Cohen um perjuro serial.

Enquanto Trump se absteve de violar a ordem nas últimas semanas do julgamento, apoiadores importantes black jack gratis online vez disso apresentaram acusações semelhantes fora da sala. Sean Hannity e outros anfitriões das notícias por cabo seguiram o exemplo

"Esta noite, enquanto seu presidente mentalmente vago se agita pelos corredores da Casa Branca black jack gratis online seus tênis de máxima estabilidade e advogados no Partido Democrata - eles estão trabalhando duro", disse Hannity ao início do programa Fox News.

Hannity também recebeu analistas jurídicos como Gregg Jarrett e Alan Dershowitz, que o descreveram com um "caso corrupto" (em inglês) chamando Stormy Daniel de uma artista abalada.

Trump mais tarde repetiu tais afirmações quando ele falou fora do tribunal.

"Há uma espécie de ciclo feedback que acontece entre a Fox News e o comentário legal público do Trump, no qual ele está citando figuras como [Jarrett and Dershowitz] (opinião)" E então dizendo: 'Isto é tudo aquilo os especialistas estão falando', apenas aqueles peritos são da FOX NEWS." disse Gertz ”.

A Fox News, a Newmax e o One America Notícias Network também descreveram frequentemente as acusações criminais contra Trump como "lawfare" cometido pelos democratas. (E não são apenas personalidades de notícias por cabo - Hannity citou Oliver Stone cinegrafista que descreveu os direitos humanos uma "nova forma da guerra".)

O objetivo, disse Polskin afirmar que o julgamento é "completamente politicamente motivado".

Ainda assim, é possível que black jack gratis online vez de a Fox News dedicar muito pouco

tempo ao julgamento e MSNBC estejam dedicando também.

Muito tempo para isso?

Jon Stewart, apresentador do Daily Show The Diário de show anfitrião criticou a mídia por black jack gratis online cobertura dos eventos no início da julgamento. Durante as eleições presidenciais 2024, redes atraiu grandes audiências ao exibir seus comício e ininterrupto black jack gratis online directo mais tarde enfrentou críticas para dar o candidato tempo livre ar "Talvez se limitarmos a cobertura aos problemas black jack gratis online questão e tentar não criar um espetáculo abrangente dos detalhes mais banais. Talvez isso ajude", disse Stewart sobre o início da investigação de campo, que foi realizada no dia 15 do mês passado na Universidade Estadual Federal para discutir os resultados das investigações realizadas pela universidade americana."

Sobre se e MSNBC estavam novamente gastando muito tempo com Trump, Jamieson disse: "A questão sempre é o que mais está na agenda de notícias? E como resultado o quê você não estão cobrindo?" Estamos black jack gratis online um período relativamente calmo legislativamente nos Estados Unidos. Por isso É difícil argumentar sobre a grande história sendo minimizada."

Gertz, da Media Matters for America (Media Matérias para a América), aponta que Trump passou os últimos nove anos envolvido black jack gratis online um ciclo de dizer e fazer coisas chocantemente impactantes; seguido por apresentadores dos meios-desenho condenando as reações contra o presidente como injusta.

"Eles sabem que toda suposta infração ou crime cometido por Trump é uma oportunidade para provarem estar a bordo do movimento Maga e com o próprio", explicou, "dizendo black jack gratis online voz alta não ter feito nada de errado nem os seus perseguidores serem realmente criminosos reais".
