If you've ever played online blackjack, or had a go in a real-life casino, the basic rules and gameplay are probably going to be the same. But for those who are new, or are just getting used to the game, there is something else to consider: side bets.

Side bets in blackjack are a great way for experienced players to add an extra level of excitement to their session. In this blog post, we will discuss what side bets in blackjack are and how they can improve your experience, and maybe add in some fun moments!

How do side bets work in blackjack?

Side bets in blackjack can add an extra element of fun and excitement to your game. Side bets are separate wagers made after the initial bet and before any cards are dealt. They're designed as another layer of wagering that could boost your winnings, cover a loss, or just be a bit of fun that makes a simple casino game a little more complex and interesting.

How to make a blackjack side bet

Making a blackjack side bet is a great way to add some extra excitement and reward to your game. A side bet is an additional wager you make outside the main blackjack bet. You can make one or more side bets, depending on what the table limits are.

To make a side bet, simply place chips equal to or less than the table limit on any of the available side bet spots.

Depending on the casino, there may be additional side bets available. Each side bet offers its own rules, payouts and odds so make sure to check them before making your wager.

What are the side bets in blackjack?

If you're looking for more fun and a bigger payout, side bets could be for you. Side bets are additional wagers that can be made at the start of each round and will pay out depending on the outcome of the round.

21 + 3

21 + 3 is one of the most popular side bets in blackjack, allowing you to make a separate bet on the first two cards dealt and the dealer's up card.

You are betting that these three cards will create a three-of-a-kind or a straight flush. If the combined value of your first two cards and the dealer's up card matches a certain combination, you can win a payout of 9:1 or higher.

You must place the side bet before any cards are dealt to be eligible for this bonus. Be sure to familiarise yourself with the rules before attempting this side bet.

Suited three of a kind

One of the more complex side bets in blackjack is the 'suited three of a kind'. This bet requires you to have three cards that are all the same suit and rank.

For example, if you have three clubs of any number, then you will win this side bet. It pays out at 10:1 if successful, but it has a high house edge, so use it sparingly.

Perfect pairs

Perfect pairs is a side bet in blackjack that allows you to win if you have two of the same cards of the same suit. You can make this bet before any other cards are dealt, and if your cards match, you could win up to 25:1 odds.

When making this bet, you should remember that the probability of a perfect pair is lower than the probability of other side bets. However, the payout can be much higher if you do hit a perfect pair.

Mixed pair

Are you looking to mix it up when playing blackjack? You can make a side bet on mixed pair and it's as easy as it sounds. A mixed pair is when you get two different ranks that match in color and suit.

This side bet pays out 5:1. Don't worry if you don't know the rules – they're simple to understand and easy to play.

Coloured

Coloured side bets allow you to bet on the colour of the first two cards dealt. You can choose to bet on either red or black. If the two cards match the colour you have chosen, then you win your bet.

This is a great way to add some extra excitement to a game of blackjack, as you don't need to know anything about the game to make this bet. So why not give it a try?

Beat the bust

Beat the bust is an interesting side bet. In this bet, you make a wager on whether or not the dealer will bust. If the dealer does bust, you win.

However, if the dealer does not bust and your hand beats their hand, you lose the bet. It's a high risk, high reward situation that can pay off if you manage to correctly guess the outcome of the dealer's hand. Try it out and see if you can beat the bust!

This is just a small taster of the endless side bets available, and depending on the game and dealer, you may be able to make even more blackjack side bets if those aren't enough for you!

Blackjack insurance

Blackjack insurance is a side bet in blackjack that allows you to protect your hand against the dealer's blackjack. If you make an insurance bet and the dealer does indeed have blackjack, you will be paid 2:1 on your original wager.

This side bet can offer peace of mind and potentially increase your payout should the dealer land blackjack. It is important to remember, however, that insurance comes at a cost, so be sure to weigh the pros and cons before making this bet.
