Top 3 Revolut betting sites Although there aren't many options for betting sites that offer Revolut, it can still be tricky to choose which one to use. This is because nowadays the bookies are becoming very alike. Here we have a list of the 3 best options for you to choose from. 22Bet 20Bet 888Sport Safety of Revolut Sports Betting A lot of people question the actual reliability of this payment method. This happens due to the fact that this is one of the first electronic banking service providers that are available worldwide. In terms of safety, Revolut literally excels. All the transactions processed using this payment method are encrypted using the 256-bits encryption. This ensures that all your funds are safe and no one can hijack the transfers. All the account information (e.g. username, password, bank account, etc.) is encrypted using the latest SSL protocols. Therefore, apart from Revolut Ltd. and your Revolut betting site, no one can see the actual data linked with your account. Their official website benefits from HTTPS (Hypertext

Transfer Protocol Secure). As a result, all the passwords and bank information you fill in on their website are completely safe. What is BIN? IN is an acronym for Bank Identification Number. The BIN is a set of numbers printed on the front of your bank card. It was developed by ANSI (The American National Standards Institute) and ISO (International Organization for Standardization) in order to recognize the various institutions issuing the cards. This set of numbers applies to prepaid cards, debit cards, gift cards, charge cards, and credit cards. Every payment card has a BIN number. The numbers identify the specific industry identifier and the bank or institution offering the card.

Revolut: GB BINs vs. LT BINs

A bank identification number, or a BIN, is a string of numbers that are found on credit/debit cards. It is typically the first four to six digits of your credit/debit card number. The BIN identifies the bank from which the card was issued. So, when you use your card to deposit at an online casino, the BIN tells the operator exactly where funds are coming from. In 2024, the UK Gambling Commission implemented new rules which ban the use of credit cards at online casinos. If your Revolut card has a UK-based BIN, you won't be able to use it to fund your betting account. However, that rule doesn't apply to those in places like Lithuania. If your card has a Lithuanian (LT) BIN or another non-UK (GB) BIN, you will be permitted to deposit funds at an online betting site using your Revolut card. You can easily check your BIN to find out where your Revolut card is from by visiting one of the many free BIN checking sites. It is usually as simple as entering your card number

How to Check your BIN

Access a BIN-checking website. There are several websites that enable you to check your BIN without you paying a dime. You can visit bincheck.io Enter the first six digit of your BIN number into the search box Click on the 'Check' box. Your BIN details containing the card brand, card type, issuer name/bank, ISO country name, will immediately appear.

Revolut bookmakers

Choose the bookmaker from the list above that catches your eye, then click the link to register for an account and start betting. After placing your first bet on that site, you'll receive your welcome bonus. You will also be asked to confirm your payment options, so you can stick to Revolut or add a list of alternatives. Doing so gives you greater control over your payments, allowing you to decide which accounts you use to pay for bets and where your winnings will be paid. Adding cash to your online betting account with Revolut is quick and secure. All transactions made through the bookies mentioned on this page offer customers modern and reliable online security. All transactions made through Revolut will be protected at both ends when depositing and betting. Secure Socket Layer technology protects your sensitive details, allowing you to transfer cash and bet with complete peace of mind. We advise reading the terms and conditions attached to Revolut as a payment option before confirming. There, you'll find details of transfer times and max deposits/withdrawals.

Advantages & limitations of Revolut

Advantages

This payment method comes along with a set of astonishing advantages compared to the traditional banking systems (physical ones). First and foremost, the interoperability achieved by using a digital banking provider breaks the barriers of distinct banks. You can now withdraw your funds from any ATM without paying an arm and a leg in fees. Another great thing about Revolut is that it allows its users to exchange currency within seconds and benefit from a great exchange rate. Sometimes (and depending on the currency you are planning on exchanging), the exchange rate is even better than the one from the bank.

Disadvantages

Starting from 14 April 2024, UK gamblers (both online and offline) are restricted from using Revolut to pay for gambling services. Therefore, all the bookmakers accepting Revolut were prompted to remove it from their available payment methods list. This action is part of the Government's Review of Gaming Machines and Social Responsibility Measures. To learn more about these restrictions, we suggest you take a look at the relevant Revolut blog post from April 10, 2024. Since there are no options for direct use of Revolut for betting, we can only recommend you to employ it to deposit money to other e-wallets. Another important disadvantage is that plenty of middle-aged adults believe that this method lacks credibility. Therefore, the number of users is not as high as it could be, taking into account the

amazing advantages of this system. Many traditional banks created a new set of applicable fees and commissions to discourage their users from switching to Revolut as their primary banking services provider. Overall In conclusion, Revolut is not the best payment method to use for online gambling due to the restrictions. However, you can always use it to top-up other payment systems. And besides gambling, you can use your Revolut card to pay for goods and services at any store that accepts card payment. The associated fees and processing times are smaller compared to traditional banks. Its coverage is similar to the one offered by major card issuers (MasterCard and Visa). Despite the general impression, Revolut is a completely safe payment method. Your transactions are secured and all the information you fill on the website is kept safe using their encryption protocols (SSL, HTTPS, 256-bits encryption). The mobile app offered by Revolut allows you to manage the funds in your account and your payments even when you are on-the-go. This way, you will be able to determine whether a transaction was misprocessed or you paid more than you expected.

O Retro Bowl é uma homenagem ao lendário lançamento de 1987 Tecmo Cupeiro, que também contou com jogadores reais.
