About This Game

The game consists of 4 parts:basic skills:1: For the stand-alone game, you can play tournament
games and heads-up games against professional-level AI opponents.The current price isR\$50. In
the next version, the nash solver real-time calculation and decision-making function will be
integrated in the decision assistant of the game. The price will be raised toR\$100, just to let you
experience the value of GTO technology in real-time games.Advanced Features:2: A complete set
of Texas Hold'em calculation tools.3: Simulator function: It can be used as an online Texas
Hold'em game auxiliary tool for real-time calculation of various data and decision-making
assistant tools, as well as a post-match review tool, or use the simulator as a hand training
device.4: Hand trainer: In the game, you can freely set your hole cards or a custom range, or set
a certain type of player range, so as to train.These tool functions will be removed in one version
and placed in another Poker Solver product. The entire new Solver tool product will be priced
atR\$100/year, and the assistant inside will beR\$99/month,R\$799/year. The simulator, which
integrates the computing power of the new version of Poker Solver, has been making steady
money in real money games. The whole set of tools is better for live games than

<https://rangeconverter/> . The Poker Assistant assistant version costs R\$5,000. The core functions of the new version of Poker Solver: 1: Solver tool set, with Pio Solver's Nash solver computing ability to solve the Headsup two-person game, and also has the core computing ability of 2~9-person table Icmizer3 multi-player Nash Solver, and cooperates with the poker simulator to complete the real-time Ability to calculate and review. 2: Poker complete set of mathematical calculation tools (Poker Tools). 3: Simulator and Assistant (Assistant), to meet the real-time calculation of the game and decision-making ability, as well as the resumption calculation ability. 4: The existing game function will become a customized practice function (Quiz), and 500 WSOP best hands are customized, and you can only play these specific hands. The version you buy now does not integrate these Solver product functions. This version only meets the AI battle function and specific card and range training functions of the same professional player level. At the same time, other Poker Solver tools do not have the game battle function in the Single player stand-alone game. Different products solve different problems. However, the AI in the Single Player stand-alone game will integrate the Nash Solver computing power when the upgraded version is released, allowing you to experience the effects and functions of the Solver. Although the current version does not have Nash computing, it can basically guarantee 70% of the decisions are correct. up. The new version of Poker Solver will be released in March 2024, and this Single player stand-alone game will be updated at the same time. This means that until March 2024, buyers can still experience the advanced features in Single player stand-alone games. The removal of these advanced features does not mean that the product is devalued. In the new version of the game, there are 4 advanced strategies for you to configure freely. In the game interface, you can still see the data analysis capabilities displayed by various upgraded advanced tools. The data displayed by these real-time calculations is valuable knowledge. The 4 strategies include: 1: Pio Preflop Chart 2: Push/Fold 3: Nash Equilibrium Solver 4: 10 Groups Range

The table below shows the functional price comparison between the computing tools in the game and other Texas-related computing products on the market. In this game, you can freely organize the table, freely set the blind level, freely set the hand range of each opponent, freely set the opponent's AI type, and freely set your own hand range, so that every time you deal You're dealt cards in this range, and you're free to set one of the 20 good cards for a definite workout. In the game, the complete real-time calculation of each player's various winning rate data on each street, listening to the winning rate, and EV data saves you from the trouble of manual calculation, and will also give you AI decision-making suggestions from professional textbooks. These ensure you can complete on-demand training. and judging whether it makes sense to you. The complete display of these information in the game is also to help you analyze the game, so that you can know the logic of your own winning and losing, where you win and where you lose. There will no longer be any free version on the mobile phone, nor will there be any advertisements, and there will be no advertisements on all versions of the entire platform. New products and new features will be continuously released and updated. In the past two years, I have been researching and practicing the ability of Poker Solver, and will complete the release of new products next year. Extremely powerful solver ability. Regarding the price of the game, it will only become more and more expensive, because I am making more and more money in the game, so why should something of value be cheap. This is the long-term value compounding of self-development. Be careful and make valuable products, which is the original intention and purpose.

manual core function: 1: Click the function board card to set the community card, and click the hole card icon to set the hole card. 2: Different player types can be set, and each player has a different range of actions. These ranges also determine different action logics. 3: Equity calculator, draw equity calculator, EV calculator, real-time poker simulator tool. 4: Real-time poker simulator tool, this is the most important for online professional players, which greatly simplifies the time consumption of thinking and performing calculations. 5: Advisor (advisor) provides you with a standard play, the basic guarantee is not to lose money. 6: Before the action decision, provide the EV value of different actions and betsize. 7: Practice the advisor and action EV in the battle mode.

Core value points: 1: Poker simulator tool: When playing poker online, professional players can display the complete mathematical data immediately after entering the opponent's range in real time according to the

situation of the game table, saving users calculation time and energy, and providing standardized behavior suggestions. These real-time and accurate calculation data and standardized action suggestions help players make quick decisions. Value point: It saves the player's energy consumption in mathematical calculations in the game, and allows the player to invest more energy to focus on the accurate determination of the player's playing range and the use of real-time data to make decisions based on experience. Real-time display of all poker game data, which is not available in other tools. I combined the various data calculation functions scattered in multiple Texas poker calculation software into the real game. The player only needs to determine the opponent's range. In the simulator, Preflop and postflop are also purchased professional range action data, which can be set in the simulator: stacks deep, bet size, and player position to see the real-time advisor. Now this advisor is conservative. range data comes from rangeconverter/solution_formats/eight_max-MTT-Complete-Postflop-Addon-NEWOnlineViewer-yearly The core of the simulator is that you need to have the ability to judge the opponent's range of action. This is also one of the most basic and most important abilities of playing cards. If you don't have the ability to display the range of Texas Hold'em at all, then you can use this tool to repeatedly play poker to familiarize yourself with the range. In the battle mode I provide the ability to display the range in real time. Let you clearly see how different people in different ranges play, and those actions are standard textbook play styles for professional players. Real-time display of complete data: The data standard provided comes from the result of 10,000 times Equity calculated by Monte Carlo method. In the battle mode with AI, you need to turn on the observer mode switch (observer) Data in the avatar frame: 1): EV: 0.70BB, indicating the EV data after the current operation. BB stands for the big blind value. 2): equity data for each street: 2r: 4; 12.93%. Format: 2r (to river equity, calculated to river street Equity): rank (in the current surviving players, own 2r Equity ranked); equity (own real-time 2r Equity, 2r Equity calculated from your own perspective). Indicates that the Equity data to River Street is calculated based on the player's own hole cards against other players' range or hole cards. nd: 1; 72.67%. Format: nd (next street equity, your own Equity on the next street): rank (ranked your own nd Equity among the current surviving players); equity (your own real-time nd Equity, nd Equity calculated from your own perspective). Indicates that the nd Equity data to the next street is calculated according to the player's own hole cards against other players' range or hole cards. cp: 1; 88.23%. cp (current street pure equity, the pure Equity of one's current street): rank (ranked of one's own cp Equity among the current surviving players); equity (your own real-time cp Equity, cp Equity calculated from your own perspective). Represents the calculated cp Equity data on the current street based on the player's own hole cards against other players' range or hole cards. Outs: 30, which indicates the number of draws made by players on that street. At this time, you can open the hands card strength information table, and you can see the probability of the current hole cards and board cards developing to various draws on each street. 1: In preflop and river street, showing 2r is enough. 2: On flop, turn street: displays the complete 2r, nd, cp data, and on flop, turn street, you can see the outs data of the player in that street at the same time. These real-time Equities and draw data assist in determining the hole cards against other players' hole cards or ranges, their own hands card strength and winning ability, and help them make action decisions on various streets. The betsize window at the top of the interface shows the human player (self) under the current action menu, the EV value ranking of each action in the action menu, the leftmost is the best, and it decreases from left to right (if there is only the leftmost data, then it is According to EV evaluation, this action is the most appropriate, and other actions do not need to be considered). This is based on the action logic shown by the EV. This is also the EV data of each action calculated by the player himself before the action. (The EV data in the avatar range is the EV data after the action, and the meaning of the two is different). This 4-speed EV table of betsize is the data display for making decisions based on EV when displaying the street. In fact, EV has no absolute correct meaning in action guidance before and after the flop (preflop and postflop), and it is not correct to make decisions based on the positive and negative EV. Advisor (Advisor): Shows the decision in this street, comprehensively assessing the following content: player's hole cards, opponents' range or hole cards, current own 2r, nd, cp Equity data and Equity ranked, and the

player's own position Table position, player's current stacks deep, current number of people remaining at the table, EV data of each action in the current menu, and bankroll management. The current advisors tend to be conservative, and the goal is to try not to lose money. Advisor also implements a standardized pre-flop strategy in preflop. Advisor also implemented the post-flop strategy suggested by rangeconverter in postflop. In the battle against AI mode, you need to turn on the advisor mode switch (observer). Click on the user's avatar to open the user's scope, view or set the scope. Click on the hole cards, you can open to view or set the hole cards. Click on the board card, you can open to view or set the board card. In the simulator, click the D icon to switch the position of the dealer. Click the gray D icon to reset the position of the dealer. Regarding range setting or selection: 1: Provides the standard range for various filling actions in the preflop stage. 2: Provide 24 kinds of action ranges commonly used by professional players. Each professional player divides all hole card combinations into 10 action groups. You can see the action ranges of tag, lag, rock, maniac, and nit players. 3: Provides a view of the opponent's mathematical action range based on the opponent's vpi and pfr. Vpi and pfr can view these two values of opponents from third-party statistical software licensed online, such as holdem manager 2. The graphical Equity calculator provides a complete and correct Equity calculation function. I provide complete toflop, toturn, toriver's montecarlo and Enum calculation methods. It has the same effect as Power-Equilib, and its own data is guaranteed to be correct. When Power-Equilib calculates toflop and toturn, the data is often incorrect (why it is not, you will know by playing with his montecarlo and Enum methods, the longer the calculation, the greater the deviation of the two data, which is wrong), But the calculation result of to river is correct. It sells for R\$40/year. It does not have a real-time calculation method in the game. It is not suitable for actual combat, but only for review calculations, lacking actual combat significance. The provided Equity calculator, draw calculator, and EV calculator are all to ensure that you know the correctness of the data calculation results and allow you to trust the correctness and stability of the function. The AI in the battle mode comes from the range of 24 professional players. You can conduct targeted range confrontation strategy training. 1): Various AIs and advisors use the same standard professional gameplay action logic. The difference from yours is only the hole cards and the action range. 2): 14 types of chip depths (10BB~100BB, 200BB) are provided (different medals will open different new chip depths, and different chip depths will have different playing methods). Because of the different chip depths, the card game will be played The strategy is completely different. 3): AI adopts the textbook style of professional players. You can understand the AI's action logic in thousands of matches, you can learn this action logic, and you can also find the corresponding exploiting AI logic. Repeated training can help you quickly identify the opponent's ability and the opponent's range. If it is in Steam, there is no sound. 0: under \Steam\steamapps\common\Solo King-Single Player Texas Holdem Poker\Windows_Release, rename Windows_Release to Windows_Release11: Adjust your computer sound controller. 2: You can download the game from D:\Steam\steamapps\common\Solo King-Single Player Texas Holdem Poker\Windows_Release Move another folder, and then click TexasHoldEmSingle.exe to have sound.

Um

espalhamento

é um termo usado no mundo das apostas esportivas para igualar as chances de ambos os lados de uma aposta. É muito comum no futebol americano (NFL), por exemplo, onde um espalhamento de +7

é frequentemente visto. Isso significa que o time Underdog deve vencer a partida ou perdê-la por menos de sete pontos para cobrir a aposta, enquanto que o clube favorito deve vencer por mais de sete ponto para cobrir.

brabet download iphone :el torero online casino echtgeld

E

O diretor de cinema britânico vencedor do Oscar, Sir Steve McQueen que é mais famoso por trazer o horror da escravidão para as telas dos filmes e virou suas lentes sobre os terrores esquecidos – até mesmo censurados oficialmente - pelos quais Londres passou durante a Segunda Guerra Mundial.

Seu novo filme,

Blitz

, que abre o festival de cinema Londres (LFF) no próximo mês é uma poderosa evocação dos perigos da vida durante a Alemanha.

Blitzkrieg

– uma campanha de bombardeamento que visava atingir a Grã-Bretanha brabet download iphone submissão no início dos anos 1940. McQueen, cujo filme mais recente :

Cidade Ocupada

, foi um longo estudo do impacto da guerra e o Holocausto brabet download iphone Amsterdã.

Blitz

Através da aprendizagem de uma catástrofe brabet download iphone um leste estação londrina.

Os detalhes foram suprimidos pelo governo do tempo das guerras para proteger a moral pública

Falando ao

Observador

O diretor disse: "Não há muitas pessoas que parecem saber sobre o ocorrido brabet download iphone Bethnal Green. Na verdade, tantas coisas surgiram na pesquisa [para a película] e me fizeram pensar 'Por quê eu não sabia disso? Estou muito animado por poder mostrar essas coisa para um público britânico'".

McQueen e brabet download iphone esposa, a diretora holandesa Bianca Stigter que trabalhou com ele em

Cidade Ocupada

Ambos estão motivados a contar histórias difíceis que acreditam estarem brabet download iphone perigo de serem perdidas para as gerações subsequentes.

Steve McQueen: "Eu continuei pensando, por que eu não sabia disso?".

Blitz

, que tem brabet download iphone estréia mundial brabet download iphone uma noite de gala LFF no dia 9 outubro. estrela Saoirse Ronan como mãe East End e tenta levar seu filho com nove anos fora da Londres para a segurança do Reino Unido; instado por pai dela (interpretada pelo cantor Paul Weller). Mas o menino não está feliz ao deixar cidade... O filme segue viagem precária pela capital enquanto ele encontra os moradores dos Londons lutando contra medo ou separações causadas pelas guerras:

O olhar da cidade brabet download iphone guerra é recriado detalhadamente por Adam

Stockhausen, que também trabalhou na

12 anos de escravidão

, McQueen aclamado 2013 tratamento da escravidão.

O evento que levou McQueen a fazer o filme ocorreu na noite de 3 março 1943 brabet download iphone Bethnal estação do tubo verde, naquela época estava apenas metade concluída. Em um desastre para tirar maior número das vidas no sistema tube durante toda blitz uma cadeia dos acidentes conspirou produzir esmiúçador pavoroso...

Um aviso de ataque aéreo havia soado e, como sempre os moradores correram para se abrigar dentro da estação. Ataques aéreos haviam morrido nas últimas semanas; mas o bombardeio aliado a Berlim naquela semana trouxe temores sobre represálias? Então esse abrigo estava mais lotado do que é habitual -e com três ônibus chegando na entrada à emissora somada aos números!

Acredita-se que a paixão por 173 pessoas, incluindo 62 crianças foi motivada pela mãe carregando um bebê escorregou nos degraus. No escuro do blecaute noturno ninguém podia ver e as outras caíram uma sobre o outra; O pânico se exacerbava com os sons dos foguetes antiaéreos sendo testados no Victoria Park nas proximidades da cidade - muitos assumiram ser

essa arma alemã mais recente!

Centenas de centenas foram fixadas dentro da escada apenas alguns metros largo, sem corrimão e logo não conseguiam respirar. Sobreviventes ou socorristas sofreram trauma ao longo do tempo; embora nenhuma bomba tenha sido lançada naquela parte das Bethnal Green nessa noite o Ministério para a Segurança Interna estimou posteriormente que havia quase 2.000 pessoas no interior daquela estação na época - um inquérito governamental foi convocado mas os resultados permaneceram brabet download iphone silêncio até à final desta guerra com vistas sobre uma vitória publicitária pelo inimigo!

skip promoção newsletter passado

após a promoção da newsletter;

No ano passado, o mesmo incidente inspirou a novela de estreia mais vendida.

Dezanove Passos

E-mail:

Coisas estranhas

Millie Bobby Brown. Ela soube do desastre através de brabet download iphone avó Ruth, que sobreviveu a ele e brabet download iphone 2024, um monumento foi erguido perto da estação para comemorar as vidas dos mortos na cidade com uma estátua no céu

Foi agora revelado que os vereadores locais tinham pedido anteriormente fundos para alterar a entrada e colocar um corrimão central. No dia após as mortes, o conselho jurou sigiloso novos trilhos foram instalados com tinta nas escadas de acesso à estação também melhoraram suas entradas na mesma área da cidade:

Antes da estreia, McQueen disse: ""

Blitz

É um filme sobre os donos de Londo. Honra o espírito daquilo que e como londrinianos suportaram durante a blitz, mas também exploram as verdadeiras representações das pessoas brabet download iphone Londres; no seu núcleo está uma família da classe trabalhadora desesperada para se reunir."
