Black Mamba Slot Review

Black Mamba slot is a

music-themed online slot coming from the studios of Play 'N Go. It is based on the eponymous Italian rock band and comes with a 5x5 grid and 20 paylines. Packed with bonus features like cascading drops, increasing multipliers and four separate features, it can be played on various devices. Playable from 20p to £100 per spin, it can pay up to 5,000 times your stake on every spin or free spin.

Black Mamba Slot

The rock theme

is evident as soon as you launch the game. The 5x5 grid is placed within a frame with speakers on one side and a mini stage on the other. Furthermore, the entire reel set is placed against a background of posters and stars representing some rock club. The Black Mamba slot logo is placed in the top right corner of the screen while all game buttons are placed at the bottom of the screen.

Black Mamba Symbols

All symbols in the slot are

related to the theme of the game. The low-value symbols include microphones, drumsticks, headphones and guitar picks. The band members – Martina, Alexandra, Fred and Cecilia – include the high-value symbols that can get you the higher payouts in the game.

The band's logo, the black mamba, acts as a Wild symbol and substitutes for all

symbols on the grid. Martina also acts as a 2x Wild and will double your wins when it takes part in the winning combo.

How to Play Black Mamba Slot

Playing Black Mamba slot

is as easy as it gets. Since the 20 paylines are always active, all you need to do is select your bet for the spin. Select from the available options below the reels and press the green spin button. The reels start spinning hopefully landing a winning combo.

If you just want to enjoy the gameplay of Black Mamba without pressing spins after each round, use the autoplay button. Select the number of rounds to be played automatically and watch the combos forming on the reels. You can stop this feature at any given time by simply pressing Stop.

Black Mamba Free Play

If you want to try the gameplay of Black Mamba slot, you need to find its free play version. It is basically the same version of the game, but you are playing with bonus funds and can't withdraw your winnings. This version lets you try all the features in the game and see what it takes to trigger the bonus features. You can also open the game's paytable and find valuable information on the rules, the paylines, and the symbol payouts.

How To Win

Black Mamba

Winning combinations in Black Mamba are formed in clusters. You need to land at least three matching symbols in a vertical or horizontal cluster to get a prize. When this happens, the combination disappears making room for new symbols from above to take their places. This is known as cascading reels and with each new winning combo from the new symbols, the win multiplier increases by 1x.

Black Mamba Bonus

Features

Solo Features

These solo features are randomly triggered on non-winning spins during the base game. Depending on which band member is active at the moment, one of four solo features will be performed:

Alexandra – two sets of symbols get destroyed making room for new symbols to land

Cecilia – One of the two wild symbols gets added to the grid

Fred – One set of symbols gets transformed into another symbol

Martina – The

bottom row in the game gets destroyed, except for the wilds. Then, Martina replaces another band member and if there's no band member, no wild is created. This happens only in Concert feature and Free Spins feature.

Concert Feature

This feature is

activated by filling up the meter with wins consisting of Alexandra, Cecilia and Fred symbols. The meter has six sections and each section is filled by landing four identical symbols. When you complete four charges, the Concert feature is triggered. Once the feature is triggered, the Solo features will play one after the other. This feature ends when all solo features have been completed.

Free Spins

If you're lucky

enough to clear the entire grid with wins, you'll trigger the Free Spins feature. The active band member will perform the solo feature on every non-winning free spin with the Martina feature present on every free spin. With every win, the win multiplier

increases. It is possible to re-trigger the feature and even trigger the Concert feature. If you manage to clear the grid, you'll get a prize of 50x your stake.
