With soccer matches, the most common betting option is betting on either team to win. You can take advantage of the money line or spread here. You can also bet on the match to end in a draw. You can also bet on the over/under number of goals scored in a match, which is similar to several other sports.

For a one-goal line, favorites must win by two to cover or one to push, while underdogs can win or draw to cash or lose by one to push. One matter of note for PK goal lines: If a bettor takes a team on a PK line, a win for that team cashes, while a draw pushes.
