European Roulette Rules

European Roulette is also widely known as a single-zero roulette. It is true, there is the only zero on its wheel (while the American roulette variation has two zero sectors — 0 and 00). There are 37 sectors on the European roulette wheel — numbered from 0 and up to 36 — and they are scattered in random order: 0, 32, 15, 19, 4, 21, 2, 25, 17, 34, 6, 27, 13, 36, 11, 30, 8, 23, 10, 5, 24, 16, 33, 1, 20, 14, 31, 9, 22, 18, 29, 7, 28, 12, 35, 3, 26.

Eighteen of them are red: 1, 3, 5, 7, 9, 12, 14, 16, 18, 19, 21, 23, 25, 27, 30, 32, 34 and 36;

Eighteen of them are black: 2, 4, 6, 8, 10, 11, 13, 15, 17, 20, 22, 24, 26, 28, 29, 31, 33 and 35;

The only zero sector is green.

What is good in single-zero roulette? Well, the odds of European Roulette are twice as better than the American one. Any gambler has more options to win in European Roulette because of single zero. To be precise, the house edge in European Roulette is 2.70% and in American one — 5.26%.

Gambler is trying to guess which slot the ball stops. Until the dealer rolls the ball, players could place a bet, after the dealer says "Bets are placed, no more bets!" it is forbidden. After the ball stops the dealer calls the winning number and pays out to winners taking away all lost bets.

European Roulette Bets

If there were only straight bets to certain numbers the roulette game would be dull and less popular. A direct bet has 2.70% winning odds. It has a very high pay-out rate — 35:1 — but you would wait for your lucky chance for a long time.

Gamblers usually like to play and win faster, that is why you should know which bets you could place in roulette. There are inside bets (bets on numbers) and outside bets (other options). Gambler place the bet trying to guess where the ball may stop and gets the pay out if wins. Pay outs reflect the winning odds.

Inside Bets

Straight bet could be placed to any certain number including 0. It pays out as 35:1. Split bet could be placed on the border line of neighboring two numbers. It pays out as 17:1. Street is placed on three numbers on the left or right vertical line beside the numbers. It pays out as 11:1. Corner and basket are placed on 4 numbers on the crisscross line. They are paid out as 8:1. Six line bets are placed on the line near the chosen 6 numbers, paid out as 5:1.

Outside Bets

Column bet (12 numbers) is paid out as 2:1. Dozen bet (12 numbers) is paid out as 2:1.

Even Money Bets

Black/Red (you place chips on the red or black field) is paid out as 1:1. Even/Odd (you place the bet on even or odd numbers) is paid out as 1:1. High/Low or also known as Manque/Passe (1-18 or 19-36) is paid out as 1:1.

Additional rules to European Roulette

Some European casinos have an imprisonment rule: If the ball stops at zero even money bets don't automatically lose but stay on the field "En Prison" till the next round. If the next round the ball lands on zero again stakes lose. But if your stake "En Prison" wins you get your original money back. That rule makes the house edge on even money bets less the average of European Roulette up to 1.35% and makes these wagers very profitable.

Another possible rule "La Partage" saves a half of even money stake to the gambler if the ball lands to zero.

First European Roulette appeared in 1842. Since then it is the most popular and profitable game among gamblers worldwide. Modern gamblers prefer European Roulette online since it ideally combines excitement, profitability and an open-access 24\7 worldwide.

Número de soldados norcoreanos muertos o heridos por minas terrestres en la Zona Desmilitarizada

Un gran número de soldados norcoreanos han muerto o resultaron heridos por minas terrestres en la Zona Desmilitarizada (DMZ) que divide a las Coreas desde finales del año pasado, cuando

el Norte comenzó a enviar a sus tropas al área de amortiguación para realizar trabajos de construcción, según informó el ejército surcoreano el martes.

La actividad de construcción ha tenido lugar desde noviembre, cuando Corea del Norte suspendió un acuerdo de 2024 con el Sur para cesar toda actividad hostil en torno a la DMZ, según el ejército surcoreano. Señaló que las tropas habían sido enviadas al lado norte de la zona de amortiguación de 2,5 millas de ancho para trabajos que incluían la reconstrucción de puestos de guardia militares que el Norte derribó bajo ese acuerdo.

El Norte ha continuado con los trabajos a pesar de "muchas muertes y lesiones" causadas por varias explosiones de minas terrestres, según el ejército surcoreano, que no proporcionó más detalles.

El ejército surcoreano mencionó las bajas mientras anunciaba que un grupo de soldados norcoreanos había entrado brevemente en territorio surcoreano el martes, cruzando la línea de demarcación militar que es el límite oficial dentro de la DMZ. Fue el segundo incidente de este tipo en este mes; alrededor de 20 soldados lo hicieron el 9 de junio, algunos portando armas pequeñas y otros solo herramientas de construcción, según el ejército.
