The mobile sportsbook is owned and operated by Cosmo Gaming Company Limited.

To prove its legitimacy, the sportsbook holds licenses issued by the UK Gambling Commission and Malta Gaming Authority.

The company has always been focused on providing a high level of transparency.

We kept our ears to the ground while creating this review and we have not encountered any major complaints about NetBet's mobile apps.

What is more, the mobile sportsbook employs only tried payment solutions, which further asserts its reliability.

Security Mobile bettors at NetBet have no reasons to worry about the safety of their personal information as the betting platform uses the latest SSL encryption technology.

This means that your banking credentials are unlikely to be accessed by unauthorized third parties.

NetBet takes gambling problems seriously and is always ready to provide vulnerable punters with a helping hand.

NetBet Betting App Verdict

According to our humble opinion, NetBet's mobile betting platform is worth the punter's attention as it offers a nice selection of betting markets, excellent customer support services, and a good-enough number of payment solutions.

In addition to that, it is one of the few online sportsbooks that offer a special first deposit bonus to mobile bettors.

Furthermore, NetBet holds licenses by two of the most reputable regulators.

NetBet's mobile apps feature a user-friendly design, meaning that placing a bet is extremely easy.

Another great advantage of the mobile sportsbook is that it is available in multiple languages.

If we need to outline NetBet's weaknesses, we would mention the limited working hours of the customer support department and the processing fee on withdrawals.//www.sportingpedia.com/wp-admin/post-new.php?post_type=page
