Gaming giant bet365 offer fixed odds betting on Lotto products as part of their repertoire of gambling products.

Most people have a lucky number and yet there are no prizes for getting just one right on the lottery, but you can place a fixed odds bet on that number or a combination of your favourite numbers coming out at bet365.

You can

have great fun betting on various outcomes of popular lotto games with loads of windfall opportunities and returns which are often more favourable than playing the lotto games themselves.

It's incredibly easy to play too. Open an account at bet365

then start making your selections and choose your own stakes, rather than being restricted to a set amount.

bet365 Lottery Games

bet365 customers can place fixed odds

bets on a number of popular Lotto games from all over the world including, 49s, Irish Lottery, Spanish Lottery, New York Lottery, German Lottery, Canadian Lottery and Australian Lottery.

Choose to play one draw or add a number of future draws depending

on which lottery you intend to play. There are various ways in which you can bet on lottery games and we have detailed those offered at bet365 below.

bet365 Lottery

Bets

Straight – Select which draw you wish to play then choose how many numbers (1-5) you wish to play per line, noting that the more numbers you add to a line the bigger the potential payout will become, but the maximum stake amount will be reduced. You can also include the bonus ball in your bet for an increased chance of winning, but this

will be reflected in your bet being placed at shorter odds. Once you're happy with your selection, enter the amount you wish to stake and click place bet.

In an example of a

straight bet, you could choose to bet on 1 number at odds of 13/2 (11/2 including bonus ball) or 3 numbers at odds of 700/1 (440/1 including bonus ball) which would yield far bigger potential returns on a £1 investment than a normal lottery stake.

Combination –

These are similar to Straight bets, but allow you to cover more possible outcomes with up to 14 numbers per line. Select how many numbers (1-14) you wish to play and then chose to play a single, double, treble, 4-fold or 5-fold bearing in mind that the number of bets required will be significantly increased. A Combination bet offers a much greater chance of success, but a larger total stake is needed to cover the amount of bets required.

HiLo – This bet type allows you to bet whether each number drawn will be higher or lower than a pre-determined amount. Using 49's as an example, you would need to predict '25 & Over' or 'Under 25' for each of the six balls drawn, though these amounts vary for each lottery game.

Odd/Even – In the same manner as the HiLo bet, you must correctly predict odd or even for each ball drawn in the chosen lottery.

You can

also bet on Bonus Ball Number, Bonus Ball Colour, First Number Drawn, Total Value and First Ball Odd/Even.
