Features of Online Slot Machines With the Buy Bonus Feature

Some gamblers did not meet with approval such bonus-buy online slots. First of all, the resentment was based on the fact that the bankroll is spent faster and gambling addiction is triggered. As a result, this option became unavailable for UK gamblers. Players from other countries have nothing to worry about – all features are fully accessible, and no changes are announced.

Another argument against this innovation is the confusion in the features description of the slot. After all, buying prize round adjustments to the multiplier coefficient specified in the maximum possible winnings relevant to the bet. The standard format is currently in use, but some critics are making attempts to challenge it.

Buy Bonus Feature: Principles of Operation

Slots, where you can buy bonuses, are impossible to distinguish from ordinary slot machines either by visual inspection or from a technical point of view. This perk is an additional function implemented in regular gaming software without interfering with the usual gambling. It is enough for those interested in purchasing Best slot bonus features to study the characteristics and description. Some casinos group such products in a separate category to facilitate the search through their extensive library.

If a gambler decides to buy a bonus, it is required to take several steps:

press a special activation button; usually, it is located next to the reels;

select in the opened options the desired bonus parameters: the number of free spins, the level of the bet, the multiplier;

wait for the calculation of the cost;

Agree to the terms and pay for the purchase.

Gamblers should note that in this case, the general rules of the slot machine apply, which should be studied in advance. To not spend money while practicing, players can launch the Bonus buy slots demo if the platform provides such an opportunity. This option enables players to explore all the subtleties of the process and understand whether it is worth investing in the bonus rounds of the selected emulator.

Top 5 Bonus Buy Slots Free Play

Due to the growing demand for this feature, the amount of game content is constantly growing, and it becomes more and more challenging to choose a decent device. Therefore, let us look through the most outstanding developments that can surprise you with the gameplay and provide the opportunity to try the Buy feature slots demo.

#### Online Slot Money Train 2

A game by Relax Gaming will take players to a post-apocalyptic world ruled by stronger ones and have more arms. Unfortunately, nobody cancelled the rules of survival, so players will have to fight for a decent reward. Steampunk-styled interface and extraordinary characters add realism to the gameplay.

The first part has implemented the technical side – there are also five reels in four rows and 40 Paylines. The high probability of profit and the dynamism of gambling are ensured by an RTP of 98% and high volatility.

Due to the available option to pay and move over to the bonus round, players have mostly question about the following features. And Money Train 2 will surely not disappoint them: Re-spins are activated if only two scatters appear on the reels. After every unsuccessful move, the multiplier increases by +1 until a winning combination comes out. This chance is the case when a lousy move turns into a good one. Free spins. They become available after three scatter symbols pop up. A new carriage arrives, and a round of spins starts. The stuck multipliers, for which four attempts are given, are summed up and then multiplied by the bet. The game continues until the player is out of moves.

The experience has proven that a bonus round can bring a significant amount, so many gamblers purchase a pass.

#### Gems Bonanza

Pragmatic Play has successfully implemented the theme of gemstones in its product, based on cluster mechanics. This system means that many options are offered for matches, and there is the option of a Bonus buy Megaways demo. The players will surely be pleased with the maximum win of 100,000 coins for the highest paying symbol.

Cluster Pays and RTP of 96.51% attract bonus hunters who invest money in purchasing the bonus round. Despite the likely risks, the slot is in demand and retains its leading position. Due to several modifiers, players can get a significant amount and make up for the Bonus bet with a profit. They light upon the reels in different colours; each is assigned its bonus, activated if the highlighted stone enters the winning chain. For example, blue is nuclear – it explodes everything around, and red expands the gem to several cells.

After a sufficient number of endless combinations has been accumulated on the counter, another prize round starts – the Gold Rush with five levels.

#### Stack 'Em

This game by Hacksaw Gaming was released in May 2024. The new product has quickly found its fans and is in demand in many online casinos. The one-of-a-kind design, lots of multipliers, and bonus potential ensure a steady growth in this slot's popularity. The main character – Canny the Can – and his friend Mouse watch the process and dance to a light melody. The countryside in the background is soothing, calming, and facilitates fun to play.

Bonus opportunities are represented by wild and scatter symbols, which appear in random order and provide a decent profit, accompanied by a lot of multipliers and their summation. In addition, each successful spin in Stack 'Em is rewarded with a re-spin, the winning combination stays on the reels, and the rest of the symbols disappear, making the space for new sticks. At the same time, the multiplier grows if the move is again a winning one.

Such an abundance of bonuses and multipliers opens up endless opportunities for getting a significant amount. And the fact that there is no need to be stuck to specific lines increases the chance to win the main prize.

#### Starburst XXXtreme

The gem theme remains popular. So, NetEnt has taken advantage of this by integrating new features into its earlier development. Having received a second life, a slot with a classic 5x3 reels offers to purchase certain perks to increase the chances of a solid jackpot. In addition, the new

version has a maximum multiplier of x150, which is provided for the expanding wild sign. So, if you are lucky enough to get it, your bet will increase 200,000 times! This amount is a genuine Golden bet available to any player.

As to the paid options, there are two points to consider:

one guaranteed wild for each spin when paying ten times the amount of the bet;

two Jokers in each spin will be worth 95 times the stake.

It is up to the player to decide whether to pay or wait for the bonuses to come out in the gameplay. Paid symbols are always a risk, but at the same time, the number of those who want to purchase them does not decrease.

Chaos Crew

The slot designed in the gothic punk style stands out among other developments by its interface and the bonus features. Hand-drawn symbols in lurid shades on a 5x5 grid make winning combinations starting from the far left reel. For this purpose, players need to collect at least three identical icons. In addition, the reels features skulls, moths, an apple core, monsters – each has its value, which players can check in the Payout table.

An additional incentive for active gambling is bonus spins and wilds that can increase the final amount by 10,000 times. Having placed the maximum bet, the player can pick up 1,000,000 coins, and this is not a joke!

An RTP of 96.3%, which is slightly above average, makes the slot more attractive and adds to the excitement and desire to go straight to the paid version with bonuses.

Wild. The wild symbol operates according to the classical scheme, but it can hide pleasant multipliers from x2 to x5, applicable if there are several wild symbols in the chain. Free spins.

They are activated after three scatters land. Then, the player is given three moves. As long as the multipliers stick to the reels, the game continues. When the chances are exhausted, all the dropped multipliers are summed up and multiply the bet. As a result, a decent amount can be received. And this is what hunters for solid prizes expect.

Summary

Whether to buy bonus games or not is up to the player. But it is worth noting that uncontrolled play leads to a quick waste of the bankroll and then to gambling addiction. To avoid wasting money, players can take advantage of the demo mode, thus exploring all the subtleties and properties of the slot. However, playing with purchased bonuses can be pretty profitable. The main thing is to choose a reasonable price within 100 times the size of the bet. The game should be fun!

### **Mark Cavendish inicia su última búsqueda de victorias récord en el Tour de Francia**

La última búsqueda de victorias récord de Mark Cavendish en el Tour de Francia comienza en serio el lunes cuando apunte a la victoria en el día más largo de la carrera de este año, los 230 km entre Piacenza y Turín.

"Estoy más preparado ahora que el año pasado", dijo Cavendish, quien comparte el récord de 34 victorias de etapa con el gran Eddy Merckx, el viernes por la tarde. "Estoy muy feliz de haber continuado".

El ciclista de 39 años inicia el Tour de 2024 decidido a vengar la amarga decepción de un año antes, cuando fue obligado a abandonar la carrera con un hombro roto justo cuando llegaba a su mejor forma. Ahora, después de posponer su retiro, lo intenta de nuevo, por última vez.

"Una cosa de la que estoy muy orgulloso es la duración de mi carrera", dijo. "Fundamentalmente, hacer algo durante tanto tiempo es algo de lo que estoy muy orgulloso".

Su decisión de retirarse del ciclismo se pospuso después de una súplica de su jefe del equipo Astana Qazaqstan, Alexandre Vinokourov, para continuar en 2024. "Volví del hospital para ver a los muchachos y ya Vinokourov me dijo: 'No puedes parar ahora, tienes que hacer otro año'", dijo.

Cavendish estuvo a punto de conseguir esa victoria récord en Burdeos el año pasado, pero fue superado en la línea por Jasper Philipsen, de Alpecin-Deceuninck, quien ganó cuatro etapas en 2024.

Este julio, Cavendish tendrá un mejor apoyo, con un banco de peces piloto, incluido su compañero de mucho tiempo Michael Mørkøv, dedicado al éxito.

"Son chicos brillantes", dijo Cavendish de sus compañeros de equipo. "Tenerlos a bordo, todo lo que tenemos con el equipo, tener cada pieza en su lugar, no quiero excusas.

después de la promoción de newsletter

"Todo lo que tenemos es un factor en mi continuación durante otro año. No podría estar más feliz. Nos llevamos bien. Hemos entrenado juntos, hemos competido juntos, todo el año, sabiendo cuál es el objetivo".

Si las dos primeras etapas, más montañosas, son probablemente un terreno de juego para los "cuatro grandes" del Tour, la ruta de la etapa hasta Turín, con solo tres colinas menores, es ideal para Cavendish.
