"One day in poker is composed 2 of 90% luck and 10% skill. One year in poker is composed of 10% luck and 90% skill".

Chris Ferguson, WSOP 2 2005 winner

Are you tired

of risking and losing money?

Do you like to have stable passive income without working from early 2 morning to late evening?

Do you want to have more free time?

Imagine a

system that yields a profit 24 hours per 2 day 7 days a week without your participation and without any risk!

Welcome to the Poker Automatics, a system that will 2 change your life!

Any gambling can be divided into 2 types:

1) games, in which income is the result of good luck

2) 2 games, where player's skill and experience increases prospects of winning

Poker belongs to the second kind.

That's not a secret that about 2 95% of all

poker players lose money! And that's official statistics. It's especially true for beginners.

Reasons for losing are well 2 known. Those are:

- lack of necessary experience and skills
- greed
- emotions
- fatigue
- passion

According to statistics, there are about 5% of 2 winning players in online poker.

Stability is the main difference between a winning player and a fan.

There are many fans playing 2 like professionals, but they lack stability.

They can win a huge sum, and then lose all their capital after receiving a 2 series of bad cards.

Winning player is not the lucky one winning one or more times in a row.

Winning player is 2 the one who earns regular poker income.

What are these 5% of winning players?

Those are professional players and poker bots.

Becoming a 2 professional player means to dedicate your life to poker. That's the same work like many others.

Poker bots (deriving from 'robot') 2 are programs that play poker by themselves without human intervention.

Maybe that would be new to someone, but we'll open you 2 a secret:

Poker bots are used in all online poker rooms! And some of them are owned by poker rooms!

Some of 2 them pretend to be players to make a crowd in not so popular poker rooms.

There are losing and winning bots.

If 2 beginners come, lose all the money and leave, that's unprofitable to poker rooms. They need people to return to the 2 poker table again and again.

Owners of poker rooms don't gain from loss of players; they have a sort of commission 2 from every game played.

So, how to earn a stable income from poker just now?

There are several options:

Option 1:

You can play 2 poker by yourself.

To become a professional player, you may need a few years of study and training, strong nerves, money 2 for training + money for game, some of which will inevitably be lost during training.

Option 2:

You can find and buy 2 poker bots from famous sites for R\$100

–R\$500 dollars, try to install them by yourself and risk your accounts.

All known bots

2 that are openly sold in the Internet are ineffective.

They've already been studied by
poker rooms.

These bots don't bring stable income 2 and are easily blocked by poker rooms
because former don't have sufficient protection against detection.

You run a risk to be
2 blocked without refund.

Option 3:

You can try to find a seller at private forums and
buy a private bot. It will 2 cost about R\$10,000-\$50,000.

It would be nice, if it'll be
updated.

However, you would also need to keep the technical side in addition 2 to the
purchase.

One robot won't bring you great income. You will need a network of bots.

If
you won't pay attention 2 to this, there would always be a risk to be blocked and to lose
all the money (if you only 2 have one account).

One thing is when you lose your only
account with all the money, and another thing is losing, 2 for example, 1 in 200
accounts, while others compensate this loss in the shortest possible time.

You need to
maintain and 2 monitor the entire network of bots constantly. Otherwise, you won't earn
success and profits.

And finally Option 4:

Create a free account 2 and get stable passive
income from online poker 24/7 with Poker Automatics.

Would you like to earn money from
poker without 2 being at the gambling table?

Imagine poker games which can't be
lost!

Deal with your favorite things, spend time with family, travel 2 and enjoy life.

And entrust money management to... robots!

Robots, which have being earning daily profit
from online poker for more 2 than 3 years.

Who could be better in poker than a
professional player?

Those who don't have emotions, who aren't subjects to 2 greed and
gambling.

Unlike humans, robots don't get tired, don't make mistakes. They instantly
calculate each opponent and don't rely on 2 luck.

Poker isn't a game for them, just a
routine job.

Imagine that a full network of robots is working for you! 2 They have the
same goal – to bring you money!

guaranteed passive income from 2 online poker 24/7 without human participation.

HISTORY OF

POKER AUTOMATICS

About 9 years ago we started to develop private software for a poker game. 2 Since then, we have been continuously testing and improving it.

Initially the

test was performed offline using purchased databases of already 2 played poker hands; then we tested Play Chips at various online poker rooms.

Since 2011, our bots are

playing at online 2 poker rooms for real money. First, there were micro stakes, but they gradually increased.

At the moment, our bots beat most 2 online players at various limit and small no-limit poker tables.

From 2011 to 2014 all client accounts in Poker

Automatics has 2 been maintained in manual mode.

All customer transactions have been

carried out manually by operators after clients have called support.

In May 2 2014 it was

decided to automate these processes and expand Poker Automatics.

Each Poker Automatics

client has its account balance (deposit 2 + all profits from previous years) paid in full.

We've updated the site, created a new database, added new payment system, 2 created an affiliate program and much more.

22 people from 6 different countries (United

Kingdom, China, Spain, Russia, Germany and the 2 United States) are working in Poker Automatics.

Software is developed by the team of five: 3 programmers and 2 analysts.

Other 17 2 people maintain system and monitor its work.

Those are Head, 5

managers of Finance Department, 8 managers of Technical Department and 2 3 managers of Marketing and Help Desk.

Currently, our bots can be found at various stakes of almost all well-known online 2 poker rooms:

888 Poker, PartyPoker, PokerStars, Microgaming

Network, Winning Poker Network, Ogame Network, iPoker Network, Merge Gaming Network.

What's the main feature 2 of Poker Automatics?

That's the lack of human factors!

Robots have many advantages comparing to other players:

They instantly

calculate each opponent and 2 odds at the poker table at any time

They accumulate

statistics and hand history of every opponent, adjust to him and 2 change their style of play

Unlike live players, bots don't make mistakes
They don't get tired
They don't have emotions
They aren't hot-tempered
We are 2 constantly improving software, so our robots can't be detected and distinguished from conventional online players.
Number of robots in our network 2 is constantly growing.
This makes possible to increase the total capital under their control, but not to increase the individual capital, 2 so risks of each individual poker account are minimized.
We don't sell, distribute or open our software, so poker rooms can't 2 learn the principles, tactics and behavior of our bots.
How can you benefit from Poker Automatics?
You get more free time to 2 devote to your favorite things, you can spend time with family, travel and enjoy life
You increase your capital without making 2 any effort. You gain profit from your investment without skills, without experience and without risks
A full network of poker bots 2 is working for you 24 hours a day, 7 days a week
Your investments are securely protected
There are no longer any 2 boundaries and restrictions for you, even if poker rooms don't welcome players from your country or laws of your country 2 prohibit playing poker online
Your income is completely confidential
You receive a payment in any convenient way
You enter the number of those 2 5% of people gaining regular and stable poker income.
