About Everest Poker

About Everest Poker

Everest Poker is one of the most recognizable names in the poker industry and one that is synonymous with an enjoyable player experience. The company claims to be Europe's first multilingual online poker room thanks to offering fully-translated software in an impressive 15 languages.

The Everest Poker brand is part of the Betclie Everest Group, which provides world-class online games and entertainment to millions of happy customers in more than 70 countries around the world.

Games Offered at Everest Poker

Everest Poker is part of the busy iPoker Network, and this means that the room has cash games running 24 hours a day, seven days a week.

Games start with blinds as low as €0.01/€0.02 and increase up to €5/€10 with most of the traffic concentrated around the six-max no-Limit hold'em cash games. However, there is also significant traffic at the short-handed pot-limit Omaha cash tables if that is your game of choice.

Everest Poker customers can enjoy Speed Poker, an exciting "fast-fold" format that allows you to play hundreds of hands every hours. Instead of being seated at the same table for the duration of your play, you get to change table and opponents each time you fold! Don't like the cards you have been dealt? Simply click the speed fold button to be instantly whisked away to a new table - with new opponents and cards! You can do this as frequently as you like until you find hole cards that you are happy to play.

Everest Poker is also the home to Twister Poker, a special sit-and-go tournament format. The tournaments are played three-handed and to a hyper-turbo blind structure and, with the prize randomly selected at the start of the tournament. The software randomly selects a prize pool amount of between twice and 1,000 times the initial buy-in and the winner-takes-all!
