#### Da Vinci Diamonds Review

Da Vinci Diamonds has long since become a timeless classic, and we have no doubt that Leonardo Da Vinci himself is turning in his grave, but we are not sure if it's because he's impressed by the "artistic quality" of the replica of his paintings. At the very least IGT could have chosen The Mona Lisa to be the most valuable symbol.

Jokes aside, we don't care what good ole' Da Vinci thinks, cause this is a great game that stands out from the crowd as the somewhat eccentric gem that it is. The Tumbling Reels feature makes sure you can get plenty of extra wins in the base game, and it's also active during the game's all-important free spins feature.

It all

plays out on 5 reels, 3 rows and 20 ways to win, and you can place bets between 20p to £100 per spin across all platforms and devices. The RTP of 94.93 % is more than 1 % below the industry average, but the low to medium volatility and the 5,000 times your stake potential more than makes up for that. You don't need to like art to appreciate this game, you just need to enjoy low risks with high potential rewards.

What symbols are there?

The lower value symbols on this game is a red, green and yellow gemstone, and the highest value symbol by far is the game diamond logo. In the real world we would think Mona Lisa would be worth a lot more, but here it's been lumped together with two less famous Da Vinci portraits that all come with medium value in this game. The payable for Da Vinci Diamonds slot looks like this:

Da Vinci Diamonds logo - Pays  
250x for 5 on a payline

Mona Lisa - Pays 50x for 5 on a payline

Portrait of a Musician

- Pays 25x for 5 on a payline

Lady with Ermine portrait - Pays 15x for 5 on a payline

3

different color gemstones - Pay between 5x and 4x for 5 on a payline

What are the bonus features?

The symbols fall from above on this game, and as you might have guessed, this means that it runs on a Tumbling Reels engine. All winning symbols are removed from the reels, and this opens up space for new potential winning symbols that drop down from above. This means that you can win many times on a single spin, and it helps keep the base game interesting. That's about it for the base game, as this is really mostly about the free spins feature we shall discuss below.

Free spins in Da Vinci Diamonds

You need to

land 3 bonus symbols on reels 1, 2 and 3 to trigger the free spins bonus feature here, and this will give you 6 free spins to start with. You can, however, win a lot more spins during this feature, and you do this by landing more bonus symbols.

During the

free spin rounds you can land bonus symbols on all the reels, and it doesn't matter where they land, only how many you land on the same spin. You get the following extra free spins for landing 3, 4 or 5 bonus symbols on the reels on the same spin:

3 Bonus

symbols gives you 2, 3 or 4 extra spins

4 Bonus symbols gives you 4, 6, 8 or 10 extra spins

5 Bonus symbols gives you 6, 8, 10, 12 or 15 extra spins

You can get yourself up

to 300 free spins in total here, which is a massive amount no matter how you look at it. You should not expect that many spins every time though, but don't worry, you will usually get a lot more than the measly 6 spins you start out with. Of course, the Tumbling Reels feature is also active during the free spins, which in and of itself will almost guarantee you a lot of extra winning chances for free.

What is the jackpot (max win)?

If you manage to fill the reels with nothing but the Da Vinci Diamonds Logo symbol, you will win the game's 5,000 times your stake max win. This is a very solid potential for a low to medium variance game, and you can pocket up to £500,000 on a single spin here if you play with the highest possible stakes.

SlotCatalog verdict

IGT has undoubtedly created something special with

Da Vinci Diamonds, and even if the graphics are somewhat dated, this game has some of the same timeless quality possessed by Da Vinci's famous portraits and paintings. The low to medium volatility combined with a solid 5,000x potential alone makes this game worthwhile, and you might get a little taste of high culture while you're at it.

A key difference between Blackjack and Spanish 21 is that all 10s are removed from the deck in Spanish 21. A Blackjack occurs when the first two cards that are dealt equal 21 – a combination of a face card (Jack, Queen, or King) and an Ace (which can have a value of 1 or 11, depending on your hand).
