winning a certain hand at showdown. It's a program that you download and run directly on your computer, as opposed to online odds calculators, which means it will generally work a lot faster. It's a very useful tool for analyzing hands and situations away from the tables, and allows you to specify a number of variables in order to recreate or simulate specific situations. Your cards, your opponents' cards, their range of potential holdings, board cards and dead cards can all be individually tweaked to set up the exact scenario you wish to explore.
