American Roulette is a distinct version of the game

and not least because it has not one but two zeroes. This makes the game a bit of an outlier as most regular versions run with a single zero, but that is not an issue for players who have come to love the game and know that the five-number bet can have power applications if played right. Well, if you are brand new to the game, don't worry – you have come to the right place as we will help you learn more about the game and what it has to offer you.

American Roulette Wheel & Table

The American Roulette wheel and

American Roulette table are pretty much standard when it comes to their representation of the available numbers. You will notice that all bet types are located precisely where you expect them to be and if anything, you can see that there is nothing too flashy about it.

However, you will also spot that right where the 0 is, there is another field that is where the 00 is. Thanks to this neat addition, you now have not one but two zero sectors to bet on and the best part is that allows you to form a special five-number bet which has a 5:1 payout and around 16.22% and 15.79% to land.

How To Play American Roulette

Alright, so we are finally here – at the long-overdue how to play American Roulette online. Look, the game follows a very straightforward logic which will make it a piece of cake for you to follow. Just like with any other version of the game, there is a simple sequence of actions to follow to get started. Here it is:

Pick a version with or without Surrender Rule; Get seated at the table or start the online game; Pick the chips and bet size you want to commit; Press on the spin button to get the game started; The wheel will spin for a while before stopping; Winners and losers will be announced.

At this point, you can repeat or

withdraw from the game. It's really up to you and the game is very easy to play. The betting limits are flexible so you never have to spend too much either.

Bets, odds, and payouts

American Roulette is a brilliant variation of the game. As the name suggests, it became popular in the United States, and for a good reason. A traditional American roulette wheel features not one but two zeros! This changes the game's dynamic, but the bets remain the same – you still have Straights, Splits, Streets, Corners, and Six Lines. You also have a new type of five-number bet that covers 1, 2, 3, 0, and 00.

Other than that, the American roulette table is pretty standard. You still have Columns, Dozens, Even/Odd, Red/Black, and High/Low wagers to choose from. The odds for these will be good with the fewer numbers you have on a bet, the bigger the payout but, the smaller the chance of actually hitting that number.

If you are looking for the best

American roulette odds, you may actually want to place your bets on the Outside options. The chance of winning is still decent, albeit the house edge is set at 5.26%. This applies to both online American roulette and the version you play in land-based casinos.
