Quantum Roulette Playtech is an excellent title that you will be happy to explore on your own time. The game makes it easy to get involved in the game and enjoy a massive multiplier which could yield up to 500x on a straight-up bet. The idea to implement even bigger multipliers is a nice addition to the game, which makes every spin you take there a little more exciting and brings you just a notch closer to winning big.

The multiplier gameplay is a good and lasting theme, but you will soon find out that this version of the game has a brilliant set of mechanics that makes every spin a moveable feast whether a multiplier ends up dropping on the lines or not. The basis of the game is the single-wheel you will find in the European iteration, which is neatly sprinkled with a few twists to ensure that you are having a blast every step of the way.

Features

of Quantum Roulette

The game of Quantum Roulette Live is a standard, somewhat innovated variation of the European game. You will still find the single zero wheel, which is there to make your game the best possible live experience any casino has to offer you. This means that the wheel will give you a great overall edge, but what sets this game apart is its multipliers.

The multipliers will range from 50x up to 500x.

You can bet

on both Inside and Outside Bets.

A single zero increases your chance to win!

Now, you

may be wondering - how does Quantum Roulette work? You will be able to bet on both Inside and Outside Bets. The ones that trigger the Quantum feature the straight-up bets you want to trigger.

However, keep in mind that non-multiplier, straight-up bets will pay less than the usually 35:1 at 29:1 instead. The live dealer here will have no control over the wheel, controlled by compressed air to guarantee completely independent results. The RNG will make sure that the outcome of those spins is down to chance. The multipliers are announced prior to the roulette wheel being spun.
