Las Vegas Electronic roulette machines

Electronic roulette machines offer games with lower limits than the live versions. These come in single, double, and triple zero versions. Some video roulette machines short-pay on straights and splits. We have all the details on video roulette, including the type of machine, number of zeros, and minimum bets, in our Las Vegas Electronic Table Game Guide.

How to play roulette

Roulette is a game that has no skill to learn beyond how to bet. There are several ways to place a wager at a roulette table. Even-money bets only lose half when the zero is called in European Roulette. This is called “la partage.”

Red/black: This bet pays even money. It wins if the color bet on comes and loses if it is a zero or the other color.

Odd/even: Wins if the choice comes and loses if it is the other one or zero.

High/low: Low numbers are 1-18. The high numbers are 19-36. The bet loses if the other comes up or zero is called.

Columns: There are three columns at the bottom of a roulette felt. These pay 2:1 if the number in that column hits.

Dozens: Also pays 2:1 and includes the first, second, or third dozen on the wheel.

Straight up: This is a bet on a single number. It pays 35:1.

Split: Covers two numbers next to each other on the felt. It pays 17:1.

Street: Three numbers in a row. It pays 11:1.

Corner: Covers four numbers that touch on the felt. It pays 8:1.

Line: Includes six numbers across two rows on the felt. It pays 5:1.

Online roulette

Roulette is dealt by all online casinos. It is somewhat different than playing roulette in Las Vegas casinos. The minimum bet starts atR\$1 or less. It is usually dealt in video and live dealer forms. The best part of playing online roulette is that most casino sites offer single zero and double zero games. The house edge at single zero roulette is 2.7%. It is 5.26% at double zero roulette. For this reason, there is never a reason to play double zero roulette at an online casino.

Online roulette is permitted while clearing a bonus at most casinos. However, the terms and conditions make clear that it is a violation to make two opposite wagers. For example, betting both red and black or high and low while clearing a bonus may get you in trouble with the site. In most cases, the online casino bonus is still over 100% when playing single zero roulette. There is no reason to break the rules.
